

Photos

PHOTO	 An aerial photograph showing a residential development. In the foreground, there are several modern, multi-story apartment buildings with light-colored facades and dark roofs. Some buildings have yellow accents. The buildings are arranged in a cluster. Behind the buildings, there are green fields and a road. In the background, there are rolling hills and a large, brown, conical mound of earth, possibly a construction site or a natural feature. The sky is clear and blue.
